

Radarreflector

Protonna

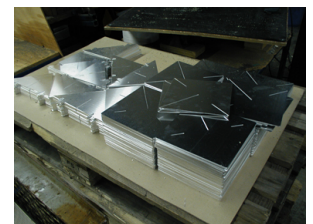

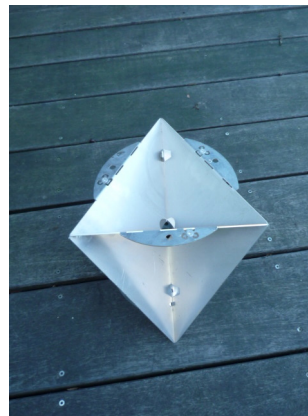

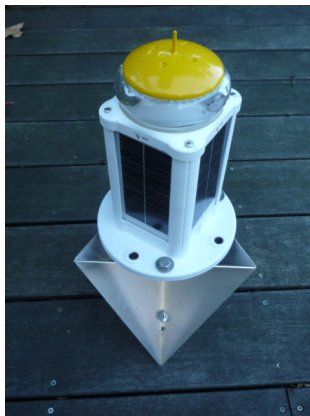

Artikel IP	Artikel naam	PE gewicht
RR 300 AP	RR 300 AP	0 KG

Nauwkerige radarreflector uit 2 mm “zeewaterbestendig” aluminium. (zo heet de kwaliteit die we gebruiken, maar op zee treedt er wel corrosie op!).

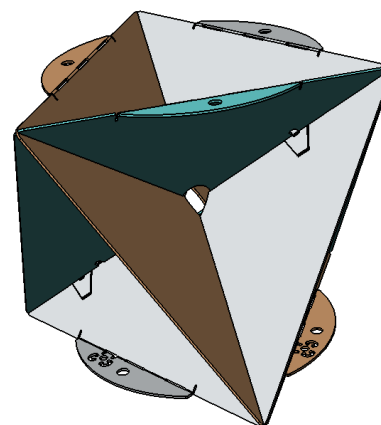

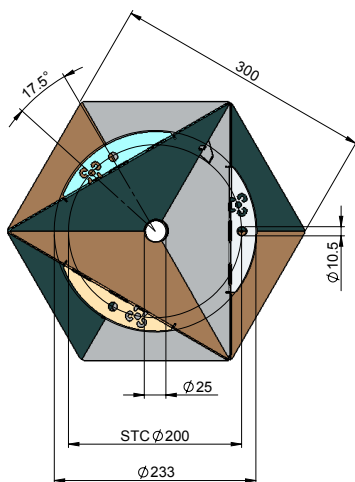

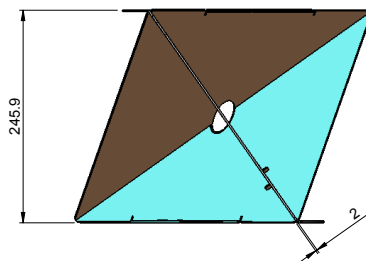

De reflector kan op een M 24 mm draadeind bevestigd worden of aan de drie flenzen.

Op de reflector kan eventueel een lantaren bevestigend worden met 3 M10 mm bouten.

Ook in RVS leverbaar. Kan gemonteerd of vlak aangeleverd worden
